Licensing Model Per User!

# Classification Understand your content & take action

Classification of all content sources drives retention, supervision and discovery

# Use Cases for Classification

---

- I want to classify my information to
  - make better **information retention decisions**
  - make better **eDiscovery decisions** or investigations
  - include items for **supervisory review**
  - classify personally identifiable information (PII) and make better **information protection decisions**
  - enable **risk analysis** and conduct any necessary remediation
  - be compliant with **industry regulations** and avoid fines
- I want to **reclassify** for all the above reasons
- I want to reclassify when **changing my policies**

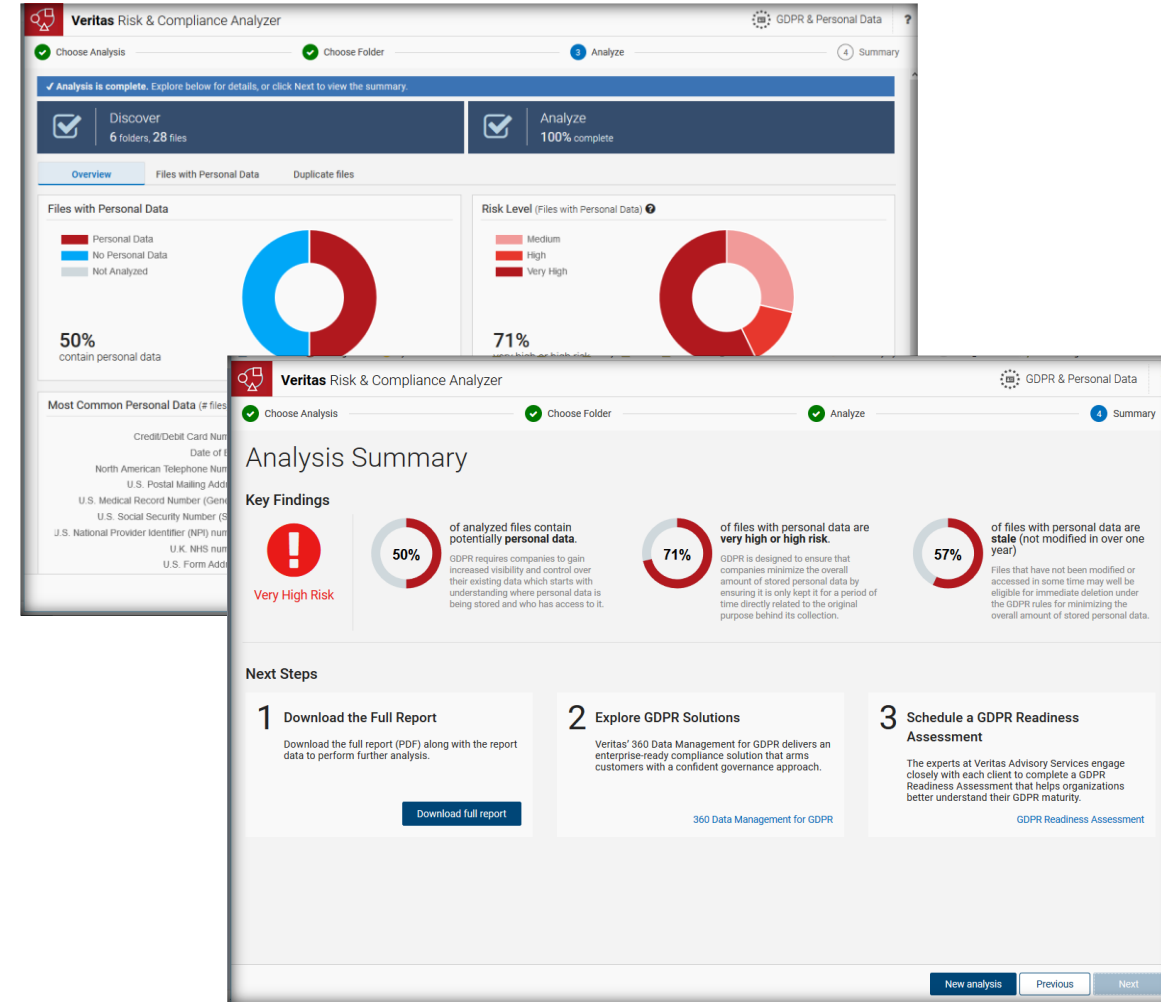

# Information Classifier Risk and Compliance Analyzer

## WHAT

- Embedded tool within VIC for policy validation
- Test an entire folder against specific policies

## WHY

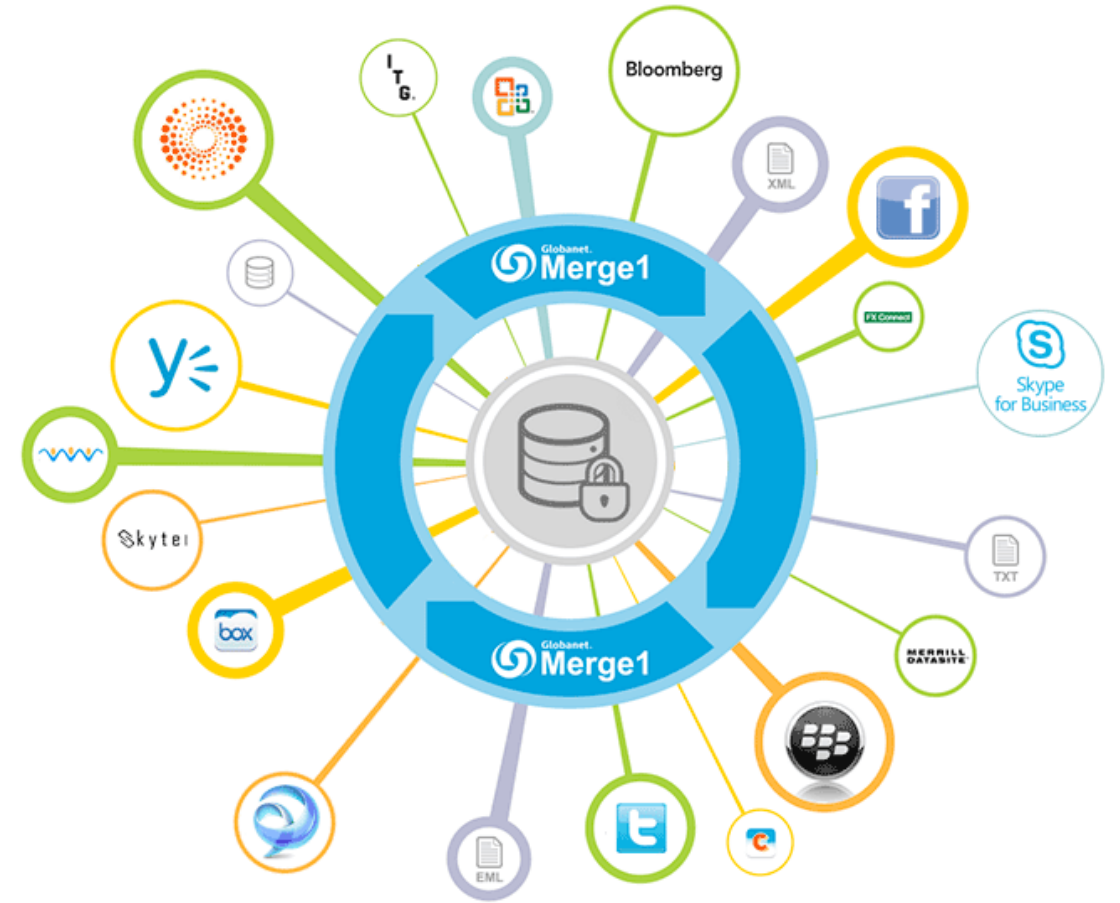

- Verify new custom policies
- Test larger amounts of data against one or more policies to gain confidence in policies
